

Fibre Scoreboard

Diets higher in dietary fibre are linked with many health benefits, including lower risk of heart disease and colon cancer. Also, high fibre foods may help you to feel full longer, which can help in achieving and maintaining a healthy weight.

Eating a variety of foods that contain fibre, such as grain products, vegetables, fruits and legumes, will put you on your way to meeting your daily fibre needs!

How much fibre do I need?

According to Canadian and American guidelines, children (over 4 years) and adults should aim for at least 25 grams of fibre per day¹.

Most Canadians eat about half the recommended amount of fibre. However, this can be improved by eating more whole grains, legumes, vegetables, and fruit.

A high fibre day

Getting enough fibre in your day is easier than you think. Check out the sample menu below to see how you and your family can get the fibre you need:

Breakfast	g fibre
1 medium orange	2.3
1 cup (250 mL) Corn Bran®	5.0
1 cup (250 mL) low fat milk	0.0

Morning Snack	g fibre
½ whole wheat pita	2.4
¼ cup (60 mL) hummus	3.4

Lunch	g fibre
Tuna Sandwich:	
½ cup (125 mL) tuna	0.0
2 slices whole wheat bread	4.8
1 medium tomato, sliced	1.5
1 cup (250 mL) low fat milk	0.0
½ cup (125 mL) blueberries	2.0

Afternoon Snack	g fibre
½ cup (125 mL) raw carrots	1.9
½ oz (15 g) low fat cheese	0.0

Dinner	g fibre
2 ½ oz (75 g) grilled chicken breast	0.0
1 cup (250 mL) brown rice	1.5
1 cup (250 mL) romaine lettuce salad	1.2
½ cup cooked broccoli and cauliflower	1.9
1 cup (250 mL) water	0.0
½ cup (125 mL) raspberries	4.2
1 slice angel food cake (1/12 cake)	0.1

Evening Snack	g fibre
1 medium fresh pear with skin	5.0
½ cup (125 mL) low fat yogurt	0.0

Total grams fibre	37.2
